

**CMMR1 Series
General Purpose Rectifier
in flat lead SOD-123F package**

Hauppauge, NY USA - January 17, 2006 - Central Semiconductor Corp. announces the release of the **CMMR1 series** of 1.0 Amp general purpose rectifiers in the flat lead SOD-123F surface mount package. This new series has peak repetitive reverse voltages of 200V (CMMR1-02), 400V (CMMR1-04), 600V (CMMR1-06) and 1000V (CMMR1-10). The CMMR1 series is suitable for a wide variety of commercial, industrial, entertainment, computer, and automotive applications requiring a small surface mount rectifier. Typically these rectifiers are packaged in the much larger SMA case. The CMMR1 series in the SOD-123F utilizes 49% less board space than the SMA, and has a 57% lower profile.

Comparison of SOD-123F to SMA (Dimension in mm)

The CMMR1 series is available Bulk Packed or 3,000 pcs on 7" Tape & Reel. Prices for the CMMR1 series start at \$0.06 each for 3,000 pcs on a 7" reel. Sample devices are available upon request. Central Semiconductor manufactures leading edge discrete semiconductors and is always eager to explore design engineers' requests for special requirements. Specifications for this new series can be found in the New Products / Latest Updates section of Central's website at www.centrasemi.com/new.
