

EAO Series 04 E-Stops

E-Stops for Rugged Environments

E-Stops from EAO provide long life and reliable service, plus *immediate stoppage* through safe/positive break contacts. Ideal for machinery, lifting/moving, transportation, medical/industrial X-ray, packaging, and food processing applications.

- Easy adaptation to any application through modular design
- Industry-standard mounting in 22.5 mm panel openings
- Accommodates broad range of electrical and mechanical specifications

And they're *safe* - twist-to-release actuators and foolproof design in compliance with ISO 13850, EN IEC 60947-5-1, and EN IEC 60947-5-5.

Product features

- Mechanical life exceeds 250,000 usages
- Rated at up to 10A, 600 VAC
- Protected against oil and water to IP 65 standards
- Silver contacts (optional gold over silver or silver over palladium)
- Stackable contact block
- Twist-to-release and key release actuators
